

National Coalition for Women's Reservation
Towards Inclusion, Social Justice and Federalism

Memorandum to Elected Representatives: Implement Women's Reservation NOW

Respected representatives: You and your parties' or associations have consistently supported women's rights through the decades. We ask you to pledge your support once again today. The National Coalition for Women's Reservation came together to demand immediate implementation of The Women's Reservation Act (106th Constitutional Amendment) 2023, unconditionally and transparently, in the coming monsoon session of Parliament.

The coalition's four demands are as follows:

- **No Conditions.** Despite being enacted in 2023, the Women's Reservation Act was delayed for three years because the Act tied implementation to the Census and delimitation when it has no link to either.
At a flat 33% of seats, women's reservation can be implemented in the current or any size of legislatures. To enable immediate implementation, all references to the Census and delimitation must be deleted from the Act.
- **States' Rights.** As a measure to strengthen India's federal compact and recognize the less populous states' concerns, the 33% reserved women's seats should be allocated according to the current states' seat shares in Parliament.
- **Transparency.** Given widespread distrust of the Election Commission of India (ECI), Special State Committees should be set up to allocate the 33% women's seats.

Each Committee should comprise 10-15 MPs and MLAs nominated by their party presidents, at least 33% of whom must be women, along with 2 Election Commission officers (1 national, 1 State). The number of MPs and MLAs should be determined by their parties' vote share in the last General or Vidhan Sabha election. Decisions should be by majority vote with no over-riding ECI powers.

- **Election Funding.** Women candidates from marginalized and vulnerable communities, such as OBCs, de-notified tribes, disabled and LGBTQIA+, should be given Union and State funding for their electoral campaigns, to level the playing field.

Making women's reservation conditional on the Census or delimitation is nothing but a way of further delaying what it took half a century of women's struggle to achieve.

From the hallmark Towards Equality report of 1975, to the first reservation for women in panchayats under the Rajiv Gandhi and Narasimha Rao governments, the first private members' bill for women's reservation in the Lok Sabha by the Janata Party's Premila Dandavate, the first government bill by the CPI's Geeta Mukherjee under the Deve Gowda government, and successive efforts by the UPA's Manmohan Singh government, women have repeatedly pressed for representation. Their hopes rose high when the Women's Reservation Act was finally passed in 2023, only to be dashed by delay due to the false linkage to delimitation.

If Prime Minister Modi is sincere about his proclaimed commitment to women's reservation, he should instruct the Union Law Ministry to bring the above amendments to The Women's Reservation Act in the monsoon 2026 session of Parliament.

We urge you, Chief Ministers, MPs, MLAs, Councilors and Panchayat representatives, trade union and civil rights associations, to pass resolutions in your respective forums requiring the Union Law Ministry to bring these amendments in the monsoon session 2026. Women's reservation must be implemented NOW.
